PROFESSIONAL SUMMARY

Computer Science and Engineering student at Universitat Pompeu Fabra with a strong foundation in programming, algorithms, databases, and software engineering. Practical, adaptable, and eager to contribute to real-world technical projects while continuing to grow across computer science.

EXPERIENCE

Digital Architecture Intern

NTT DATA | Barcelona, Spain | Mar. 2026 - Aug. 2026

Worked on automation and AI initiatives to improve internal productivity in Digital Architecture.

- Developed automations to reduce repetitive manual tasks and improve internal workflows.
- Implemented MCP-based AI tools to support productivity and practical use cases.
- Supported AI adoption through internal training and knowledge-sharing initiatives.

Private Tutor

Self-employed | Barcelona, Spain | Sep. 2023 - Jun. 2026

Tutored mathematics, physics, technology, and programming across different age groups and disciplines, strengthening communication and mentoring skills.

EDUCATION

Bachelor's Degree in Computer Science and Engineering

Pompeu Fabra University | Barcelona, Spain | Graduation Date: Jun. 2027

Bentley University | Boston, Massachusetts, USA | Exchange Program, Fall 2026

TECHNICAL SKILLS

- **Programming & Tools:** Java, Python, C++, C, SQL, React, JavaScript, HTML/CSS, Git
- **AI, Automation & Methods:** MCP, AI tooling, workflow automation, ML, Agile, Scrum

PROJECTS

■ Finance Manager | Personal Project, 2026

Personal finance app with multi-currency tracking, transaction, and financial insights.

■ Smart Truck Copilot | 2nd Prize, Damm Challenge at InterHack BCN, 2026

AI-assisted logistics prototype for smart loading, route support, and hands-free driver guidance.

■ Movie Match | Personal Project, 2025

Built a web app for privacy-first personalized movie recommendations using TMDB data.

CERTIFICATIONS & COURSES

MCP Basic & Advanced | Microservice Architecture | AI Fluency | INCIBE Cybersecurity
